*The Colorado Community Health Network (CCHN) is the collective voice for Colorado's 15 Community Health Centers (CHCs) and their patients. CHCs provide a health care home to more than 500,000 of their community members - one in 10 people in Colorado - from 55 of the state's 64 counties. Without CHCs, hundreds of thousands of Colorado's low-income families and individuals would have no regular source of health care. CCHN's mission is to increase access to high quality health care for people in need in Colorado. For more information about CCHN, please visit [www.cchn.org](http://www.cchn.org).*
