<p>Interim Bill: Paycheck Protection Program Flexibility Act</p> <p>Signed into law June 5</p>	<p>Provides over 4.4 million PPP borrowers additional time to qualify for loan forgiveness and eases the restrictions on how much of the forgivable portion of the loan proceeds must be used for payroll costs. Specifically, it extends the time in which businesses need to spend funds and alters the rule that they must spend 75% of the funds on payroll for full forgiveness (level would be reduced to 60%).</p>	<p>Will reduce the complexity of PPP forgiveness and ensure many more borrowers have all, or substantially all, of their loans forgiven. Extends the time in which CHCs must use their PPP funds from 8 weeks to 24 weeks, and pushes back the deadline to rehire workers from June 30 to Dec. 31.</p>	<p>H.R. 7010 bill text</p> <p>Detailed provisions of bill</p> <p>Key details of legislation from National Law Review</p>
