Dear Legislator:

Community Health Centers (CHCs—also called federally qualified Community Health Centers or FQHCs) provide access to cost-effective, high-quality primary and preventive care to Coloradans in your district and across the state. I hope this quick guide to Colorado’s 20 CHCs, which includes important details, statistics, and contact information, is a useful resource during the 2023 legislative session and beyond.

Thank you for your commitment to ensuring access to health care and your continued support of CHCs.

My best for a fruitful 2023 legislative session,

Annette Kowal
CEO
Colorado Community Health Network

The Colorado Community Health Network (CCHN) represents Colorado’s 20 CHCs that together are the backbone of the primary health care safety-net in Colorado. Since its inception in 1982, CCHN has made significant strides in ensuring that Colorado’s low-income working families and individuals have access to affordable, efficient, high-quality primary health care.

CCHN is committed to:
- Educating policymakers and stakeholders about the unique needs of CHCs and their patients.
- Providing resources to ensure that CHCs are strong organizations.
- Supporting CHCs in maintaining the highest quality care.
ABOUT COLORADO'S CHCs

20 Community Health Centers (CHCs) operate more than 240 clinic sites across Colorado, providing health care to more than 855,000 patients per year.*

**CHCs provide patient-centered, comprehensive primary care that includes:**

- Preventive, developmental, and diagnostic services for children
- Adult preventive services
- Urgent care for minor trauma
- Maternity and prenatal care
- Pharmacy, laboratory, and radiology
- Dental, behavioral health, and optometry at some locations
- And more - all provided in a team-based setting by culturally competent staff

**CHCs are located in areas where access to care is limited***

- Urban: 64%
- Rural: 33%
- Frontier: 3%

**CHCs see patients regardless of ability to pay or insurance status**

90% of CHC patients fall at or below 200% of the Federal Poverty Level**

**CHCs are also called federally qualified Community Health Centers and receive this federal designation because they are governed by five core principles:**

- Serve all patients regardless of ability to pay for services.
- Located in high-need areas.
- Provide comprehensive primary health care.
- Governed by community boards - at least 51% of board members must be patients.
- Operate as nonprofits or public agencies with a mission to provide health care to low-income, working families.

*CHC data on patients served over an 18-to-24 month period of time, reported to CCHN in April 2022.

The Value of Colorado's CHCs

Cost Savings

$2,371 saved annually per patient

Research shows the Community Health Center model results in lower per-patient spending for Medicaid patients compared to non-CHC patients.*

Savings are driven by:
- 33% lower spending on specialty care
- 27% lower inpatient costs
- 25% fewer hospital admissions

Economic Catalysts

6,082 full-time jobs provided by CHCs**

Community Health Centers are vital to the economic health of Colorado communities as employers and businesses.

Patient-Centered Care

100% of Colorado CHCs have or are pursuing PCMH recognition

All Colorado CHCs are Patient-Centered Medical Homes (PCMH) or pursuing the recognition. That means they focus on system and team redesign, care coordination, improving the patient experience, providing quality care and reducing costs.

Essential to Medicaid

Partners in Access

CHCs are the medical home for 33% of Colorado's attributed Medicaid population.

Partners in Innovation

CHCs have helped lead transformation in Colorado's health care system, improving the triple aim:
- Reduce total cost of care
- Improve population health
- Improve patient experience

** 2021 Uniform Data System
CHCs Across the State: Map of All Sites
Axis Health System (Axis) began in 1960 as a small Community Mental Health Center, later expanding to become a licensed Substance Use Disorder Treatment Provider and a HRSA-designated Community Health Center, the only organization in the state with all three designations. Axis has been a leader in providing an integrated model of health care, which includes primary, oral, and behavioral health care, treating the whole person. Axis also offers health insurance outreach and enrollment assistance to patients.

In May 2020, Frontier Community Health Clinic in Dove Creek merged with Axis, increasing Axis’ ability to serve even more Coloradans. In July 2022, The Center for Mental Health merged with Axis, expanding the reach of mental health services in the region. Axis now has 18 clinic locations, including six federally qualified Community Health Center clinic sites.

In 2021, Axis provided 28,814 visits to 7,700 unduplicated patients.
Since 1977, Clinica Family Health (Clinica) has provided primary health care to struggling individuals and families who might otherwise might fall through the cracks of the health care system. Clinica’s mission is to be the medical, behavioral health and dental care provider of choice for low-income and other underserved people in south Boulder, Broomfield, Gilpin and west Adams counties, with culturally appropriate and prevention-focused care. Today, Clinica operates seven community-based medical clinics and three dental clinics, and is recognized at state and national levels for its innovative care model and exceptional health outcomes.

In 2021, Clinica provided 284,911 visits to 54,151 unduplicated patients.

23% of visits were provided via telehealth
Colorado Coalition for the Homeless (the Coalition) was established in 1984. The mission of the Coalition is to work toward the prevention of homelessness and the creation of lasting solutions for people experiencing and at-risk of homelessness throughout Colorado. The Coalition advocates for and provides a continuum of housing and a variety of services to improve the health, well-being, and stability of those it serves. Since its founding almost 40 years ago, the Coalition has earned state and national recognition for its integrated health care, housing, and service programs. Each year, the Coalition provides integrated medical, behavioral health, dental, vision, and substance use services, as well as housing and other support services, to roughly 15,000 men, women, and children experiencing homelessness.

In 2021, the Coalition provided 129,253 visits to 14,272 unduplicated patients.
Founded in 1966, Denver Health’s Community Health Services (DCHS) network includes 12 Community Health Centers, three urgent care centers, three mobile health centers, and 19 school-based health centers located throughout the Denver metro area.

Each DCHS medical center provides family care services for adults and children of all ages, as well as pharmacy services. DCHS provides preventive and community services vital to Denver residents, including immunization outreach clinics, Head Start clinics, dental and mental health services, Women Infants and Children (WIC) program services, and outreach and insurance enrollment services.

In 2021, DCHS provided 667,214 visits to 180,065 unduplicated patients.
High Plains Community Health Center (High Plains) opened its doors in 1995 with the mission to provide accessible health care for rural communities on the eastern plains of Colorado. High Plains specifically targets underserved populations for access to care but serves all community members. The methodology utilized to ensure access includes a sliding fee scale based on income for all medical, dental and mental health services, Spanish competency including several providers fluent in Spanish, free transportation, eligibility workers to qualify patients for the sliding fee scale and assist with Medicaid and Child Health Plan Plus (CHP+) applications, many free preventive services such as colonoscopies, women’s services, evening clinics for migrant farm workers, evening and all-day Saturday clinics, and affordable medications. High Plains operates out of six sites including the Main Clinic, Adult Health Center, Family Health Center, Lamar Community College Campus Health, the Wiley Clinic, and the Holly Clinic.

In 2021, High Plains provided 43,396 visits to 9,487 unduplicated patients.

14% of visits were provided via telehealth
Inner City Health Center (Inner City) was founded in 1983 to serve the Denver metro area's uninsured and underserved communities with consistent, high-quality health care. Inner City serves all patients, regardless of ability to pay, with dignity and with accessible health care focused on their needs. As an award-winning Community Health Center providing comprehensive medical, dental, and behavioral services to individuals of all walks of life without population restrictions such as residential boundaries or insurance requirements, Inner City fills a critical, unmet need in the Denver community.

In 2021, Inner City provided 25,918 visits to 6,960 unduplicated patients.

MarillacHealth (Marillac) was established as a safety-net clinic in 1988, sponsored by St. Mary’s Hospital and the Sisters of Charity of Leavenworth Health System with the goal of providing care to low-income, uninsured residents of Mesa County. Awarded FQHC status in 2015, Marillac’s team-based care model of primary medical and integrated behavioral health care is designed to care for the whole patient, regardless of their income or insurance status. In addition, Marillac is dedicated to providing comprehensive dental care services to the entire family, babies to seniors. For over 35 years, Marillac has been the primary safety net clinic and health care home for community members of Mesa County who might not otherwise have access to care. Today, Marillac operates three clinic sites, outreach sites, and a school-based health center.

In 2021, Marillac provided 41,294 visits to 11,233 unduplicated patients.
Founded in 1978, Mountain Family Health Centers (Mountain Family) improves the health of our community by providing equitable and affordable medical, behavioral, and dental healthcare for all. Mountain Family serves over 24,000 patients at Mountain Family’s nine health center sites (including five school-based health centers) with integrated healthcare. Extensive care coordination, affordable family planning, and outreach and enrollment services for insurance and financial assistance programs are also provided. Mountain Family has added discount pharmacy services at its sites, providing lifesaving medications to its uninsured and low-income patients at cents on the dollar. Mountain Family saves the West Mountain region it serves an estimated $18.1 million in health costs annually by providing affordable primary care, reducing chronic illness burden, and limiting unnecessary healthcare spending. Donations to our Health For All Fund also help provide care to all, regardless of insurance status.

In 2021, Mountain Family provided 75,640 visits to 15,145 unduplicated patients.

In 2005, Northwest Colorado Health (Northwest) took over a small community clinic in Craig and grew it into a Community Health Center, which became a designated federally qualified Community Health Center (FQHC) in August 2008. In 2013, Northwest opened a second FQHC in Steamboat Springs. The agency began operating a standalone dental clinic in Craig in 2017, a second dental clinic in Oak Creek in 2018, and in 2021 began offering school-based dental services via a mobile unit.

Northwest has successfully integrated behavioral health and dental health with primary care, working in close cooperation with chronic disease management and prevention programs. They utilize a team-based model to allow for better utilization of limited resources. Northwest is proud of its achievements and looks forward to continuing to build capacity to serve growing communities in Northwest Colorado.

In 2021, Northwest provided 24,446 visits to 6,112 unduplicated patients.
Peak Vista Community Health Centers (Peak Vista) has proudly served Colorado communities since 1971 as a non-profit federally qualified Community Health Center dedicated to providing quality, patient-centered, medical and dental care that incorporates behavioral health services. Peak Vista serves more than 89,000 patients through 23 outpatient Community Health Centers in Colorado’s Pikes Peak and East Central regions.

For over 50 years, Peak Vista’s dedication to creating healthier lives has never wavered. Peak Vista continues to bridge health care and innovation to meet the evolving needs of the Colorado communities it serves.

In 2021, Peak Vista provided 397,042 visits to 89,099 unduplicated patients.
Pueblo Community Health Center (PCHC) was founded in 1983 with the mission of providing primary health care to those in need.

PCHC has 13 locations throughout Pueblo and Huerfano counties. This includes five School-Based Health Centers and a site at Pueblo Community College. The newest facility, a 64,000 square foot, net zero energy clinic opened January 2022 in Pueblo’s east side neighborhood and will be able to serve an additional 5,000 patients over the coming decade.

PCHC offers integrated primary care (medical, dental, behavioral) and is the largest provider of prenatal care in its service area. Offering top quality care through accessibility, leadership, and financial independence, PCHC strives to be the primary care provider of choice.

In 2021, PCHC provided 111,115 visits to 22,744 unduplicated patients.
River Valley Family Health Centers (River Valley) serves east Montrose and Delta counties with four clinic locations. River Valley provides integrated medical, dental, behavioral health, substance use disorder, pharmacy, and support services at its three primary care clinics located in Montrose, Olathe and Delta and accepts walk-in appointments at its Convenient Care Clinic in Delta.

River Valley services are provided across the lifecycles, including general primary medical care services, gynecological services, basic laboratory tests, screenings, immunizations, assistance with enrollment in Medicaid and the insurance marketplace, translation, and preventive health services. River Valley earned Patient Centered Medical Home recognition for all three clinic locations in 2019, 2020, and 2021, and continues to be in the top 10% of federally qualified Community Health Centers across the country for patient health outcomes.

In 2021, River Valley provided 38,479 visits to 8,116 unduplicated patients.

The mission of Salud Family Health Centers (Salud) is to provide a quality, integrated health care home to the communities they serve. Salud provides a patient centered medical home where medical, dental, behavioral health and pharmacy services are integrated to deliver quality patient care. All services are delivered in a culturally appropriate manner with an emphasis on prevention and early intervention.

Since Salud was founded in 1970 to address health care needs of the migrant farm worker population in the Fort Lupton area, Salud has evolved into an extensive primary health care delivery system operating 13 clinics, several school locations, one Mobile Unit and one Administration and Training Center serving 11 communities and 10 counties in northern and southeastern Colorado.

In 2021, Salud provided 276,547 visits to 67,103 unduplicated patients.
Sheridan Health Service (SHS) Sheridan Health Services (SHS) is an academic, nurse managed Federally Qualified Health Center, the only CHC of this type in Colorado. SHS provides highly integrated model of primary care with behavioral health in conjunction to substance use treatment, obstetrics, dentistry, and pharmacy services, while serving as a training facility for students.

SHS’s mission is to provide high quality, culturally responsive health care to the community through equitable access, inclusivity, innovation, and academic excellence. SHS strives to fulfill its vision of advancing health and wellness throughout the community by providing justice driven, person-centered care founded in trusting relationships and equity.

SHS originated in 2005 and has expanded into three locations to meet community demand for accessible, affordable, exemplary care.

In 2021, Sheridan provided 15,064 visits to 3,640 unduplicated patients.

STRIDE Community Health Center was established in 1989 in response to the unmet health needs of individuals who were economically poor in the suburban Denver areas. Populations that face significant difficulties accessing affordable, equitable, and high-quality comprehensive care remain STRIDE’s primary focus. In addition to providing health care, STRIDE offers an array of non-clinical support services to break down the barriers that limit access to care, including mobile care, School Based Health Centers and telehealth services.

STRIDE puts the community and patients at the core of all decisions with the strategic priorities of Thriving Lives, Community Voice, Accessible Services and Best Work. From a single clinic in 1989, STRIDE has grown into a large, integrated health care delivery system with 15 health center locations.

In 2021, STRIDE provided 213,080 visits to 55,298 unduplicated patients.

Summit Community Care Clinic was established in 1993 as a weekly walk-in clinic staffed by volunteers and managed by Summit County Public Health. In 2006, it became an independent non-profit organization, and in 2015 became a Federally Qualified Health Center (FQHC). The mission of the Care Clinic is to provide exceptional, integrated, patient-centered care that is available to all. Medical, dental, and behavioral health services are provided via the main medical and dental clinics in Frisco, and at School Based Health Centers in Summit, Lake, and Park Counties. An in-house pharmacy in Frisco provides access to affordable medication for patients. The Care Clinic offers a comprehensive sliding fee scale and accepts all forms of insurance including Medicaid, Medicare, and private insurance. The Care Clinic is proud to provide to be a vital health care partner in the community it serves.

In 2021, the Care Clinic provided 31,338 visits to 8,044 unduplicated patients.
Sunrise Community Health (Sunrise) began in 1973 as a migrant health clinic. Today, Sunrise’s family medicine, pediatric, prenatal, dental, and school based health centers are health care homes for over 40,000 people in northeastern Colorado. Sunrise strives to deliver integrated primary care services including lab, x-ray, pharmacy, vision, health education, and care management that are available to all, regardless of the ability to pay.

Sunrise co-founded the North Colorado Health Alliance, a community collaboration focusing on the low-income, uninsured, and underinsured people within its service area. Sunrise is a co-founder of Northeast Health Partners, a regional accountable entity in northern Colorado. Sunrise is a recognized leader in collaboration, integrated care, and professional health education. Sunrise works with many partners, including community health and public health agencies, hospitals, and behavioral health providers, specialists, and county services.

In 2021, Sunrise provided 160,033 visits to 40,503 unduplicated patients.

Tepeyac Community Health Center (Tepeyac) was founded in 1994 in north Denver in response to the growing number of working Latinx families who lacked access to health care. Tepeyac understands that Latinx families experience a myriad of barriers to accessing health care—including immigration-related issues, lack of insurance, cost of care, and language and cultural hurdles. Tepeyac has achieved tremendous growth and development over the last nearly three decades.

Today, Tepeyac provides integrated physical health, behavioral health, health education, and oral health services in a culturally responsive approach to care. Tepeyac draws patients from across metro Denver, most of whom are uninsured and are best served in Spanish. Tepeyac is poised for a major expansion in 2023, and will be opening a new clinical facility that will offer a full-service pharmacy and significantly expanded medical, behavioral health and dental services.
Uncompahgre Medical Center (UMC) has been serving the frontier region of southwest Colorado for over 40 years in a primary service area of 2,000 square miles. UMC is a single-site CHC and medical home that offers medical, dental, and behavioral health, and a 340B pharmacy under one roof. The diversity of care offered is of great significance, as the nearest hospital and population center is 90 minutes away. UMC is committed to eliminating financial and geographic barriers to care while constantly refining the health care delivery model to manage costs, assure high-quality care, and encourage a healthy community. UMC was recently placed in the top decile for all FQHC’s for its quality outcomes by HRSA.

UMC partners with other Community Health Centers, Tri-County Health Network, Colorado Midwest Center for Mental Health, Rural Health Centers, regional hospitals, state agencies, county agencies, and private foundations that are aligned with the UMC mission.

In 2021, UMC provided 12,485 visits to 2,811 unduplicated patients.

- **Patient Income Levels as % of the FPL**
  - 100% or Below: 14%
  - 101-150%: 11%
  - 151-200%: 10%
  - Over 200%: 65%

1% of visits were provided via telehealth.
Valley-Wide Health Systems (Valley-Wide) was established in 1976, and specializes in high-quality integrated health care services such as family medicine, dental, behavioral health, prenatal care, preventive medicine, physical therapy, and much more. Valley-Wide oversees an Agricultural Worker Health Services Program that provides vouchers to patients in underserved areas of the state. In addition, Valley-Wide provides health insurance outreach, enrollment assistance and transportation to clients and community members. Valley-Wide is committed to providing safe and effective health care services in a respectful and inclusive manner with special consideration for medically underserved populations.

In 2021, Valley-Wide provided 133,894 visits to 35,588 unduplicated patients.
The Colorado Community Health Network (CCHN) represents Colorado's Community Health Centers (CHCs), the largest primary care network in the state, serving more than one in seven Coloradans.

CCHN’s mission is to increase access to high-quality health care for people in need in Colorado.

Find out more about CCHN and Colorado’s Community Health Centers by visiting www.cchn.org, following us on Facebook at www.facebook.com/coloradocommunityhealthcenters and Twitter www.twitter.com/CoCHCs, or contacting:
